## The Policies They Don't Tell You

# Lib Dems for Pornographers

The violence of online pornography is staggering. Over 90% shows women, usually teen girls, being abused, often by gangs of men. This is already banned in porn DVDs and sex cinemas.

But the Lib Dems see the consumption of this porn as a right and its making a choice – even for our children.

## **YES** to 16 year old ‘Porn Stars’

Until 2017, Lib Dem policy was that 16 year olds could be used in pornography.

## **NO** to Protecting Kids from Porn

Most children have viewed porn by 14. 10% of 12-13 year olds fear they are addicted to it. But the Lib Dems say internet porn ‘opt in’ and age verification is ‘extreme’ and ‘illiberal’.

## **YES** to Abuse Porn

The Lib Dems see any attempt to curb the huge levels of abuse in online porn as ‘the act of a dictator’.

## **YES** to Pornographers

The party welcomes pornographers like Anna Span, selected as an MP candidate. And Michelle Gent, former Lib Dem Councillor, who used local party HQ to recruit for her porn.

**All these policies can be seen in Lib Dem Policy Paper 126:**

# Lib Dems for Pimps

**Sex work is 'fun' and 'rewarding'**

Lib Dem Policy Paper 126

Prostitution is one of the most abusive industries in the world. 70% of women in it were abused as children, 50% started when homeless. Once in it, 50% have a drug dependency, 70% have PTSD and 90% want to get out.

Policy on Pimps

**Street workers .. are accepting of the business-type arrangement**

But the Lib Dems have adopted policies aggressively lobbied for by the sex trade, under which the industry would explode - a move that has proven disastrous in every country that has tried it.

## **YES to Pimps as Business Men**

According to the Lib Dems, women in prostitution welcome pimps as 'business partners'.

## **YES to 'Consensual Trafficking'**

The Lib Dems would redraw laws against trafficking to allow for 'consensual trafficking'.

## **YES to Policies from Traffickers**

The Lib Dem's plan to 'decriminalise' pimps and punters, not just the women they control and use, is aggressively pushed by known pimps and even jailed sex traffickers.

## **NOT Buying It !**

This leaflet has been produced by Not Buying It. We are a non-political human rights group but we think people need to know *what* they are voting for when they vote Lib Dem. After all, *these* are not policies the party publicises.

If you're not buying into these policies either then tell the Lib Dems to stop listening to pimps and pornographers and start listening to women and children. Demand a total rethink.
