

Wildcats Strip Club, Barnsley

Google Reviews

Google Reviews of Wildcats, Barnsley paint a damning picture of this strip club. Of course, they cannot be verified, but 3 separate reviews by individuals who are not even trying to hide their names must surely raise concerns. The individuals could also easily be contacted. Given the widespread pattern of sexual contact - and more - in the strip trade, this club simply appears to be operating like the rest of the industry ¹.

It should be noted that a judge has already ruled that anonymous information such as this can be used by Councils as 'hearsay' information in licensing decisions ². Infact evidence is not even needed in a licensing hearing in order to refuse a strip club license.

I had the mis-pleasure of going to Wildkats last weekend. Not only did I pay £3 entry to be greeted by a load of 1 out of 10's, but one of the strippers claimed she didn't receive my payment when I refused to tip her the £20 she demanded. I was surrounded by security and made to feel like a criminal. Thankfully another stripper was in the room and verified my version of events but not before the manager became aggressive. £3 entry is better spent on a VK at one of the bars in tann! Avoid at all costs!
