On a Saturday night, After having had accidentally walking into what we thought was a normal club; everything was great! We probably spent around £200 in here - as the drinks are so over priced. Then low and behold the bouncers come along. The bouncers and management here are corrupt and just don't care. They should not have there licence - to which I will be contacting Police/Licensing Agency. We were strangled, kicked and punched when we decided to leave. If you ever do stumble access this bar, be sure to break the bouncers other finger for me :) Just like he strangled me and my 2 other friends (girls).
